## Sending Our Support

Dear Dr. Henry,

During these turbulent times, you have been a steadying figure, helping British Columbians and Canadians navigate challenges through science-based and data-driven decision-making. Through your strong leadership, you have been a role model to Canadians young and old. We recognize your efforts to keep Canadians safe and we thank you for helping to educate and protect us.

We are proud to have you as an Honourary Life Member of the Society of Canadian Women in Science and Technology (SCWIST) and we would like to extend our support and gratitude for all the work you do. As a professional organization that empowers girls and women in STEM, we are proud to support you and your fellow Health Officers and the scientific approach that you take.

SCWIST's vision is to create an environment where women and girls in Canada can pursue their interest, education, and careers in STEM (science, technology, engineering, mathematics), without barriers. Thanks to your work and visibility, girls and young women across Canada can see themselves as leaders and be encouraged to pursue their interest in STEM.

On behalf of SCWIST, we would like to extend our gratitude and thanks. We are honoured that you are one of us and we want you to know that we are with you!

Sincerely,

Paloma Corvalan

President, Society for Canadian Women in Science and Technology
